

mitech news

In this edition:

- Used machinery service
- MAX Press cushions

Greetings to all and welcome to the February 2022 edition of our News Letter

Used machinery

For many years Mitech has sourced and supplied use wood panels and lamination machinery. Right now, both supply and demand is high! Experts out there may be able to explain why!

As an example the following press lines are now available:

All European machines:

- Particleboard and MDF presses: Twin belt 600 to 1,500m³/day
- Short cycle melamine presses: 6x8 to 6x 16ft
- Sanding lines: 8 foot width

We compliment the machinery supply with dismantling pack and re-assembly services, if and when required. (Depending on final destination and engineers' availability)

Mitech can also supply engineering project planning and costing Further, along the project supply chain, advice on operation is available. And of course we can also sell your machinery

services.

Mitech MAX Plus press cushions

Our press cushion (pad) service commenced several years ago in order to compliment our press plates service We did not contemplate that supply,would eventually take on a life of its own!

I take this chance again to re-introduce our press pads

These press pads satisfy all the usual performance criteria.

- Uniform heat transfer
- Excellent pressure compensation
- Long lifetime
- Good tensile strength
- Dimensional stability
- Heat resistance
- “Window-frame” resistance
- Note. Experience laminators know that any press cushion from any supplier can be used with any plates regardless of supplier. Contrary to some information circulated in the market

Delayed shipments

This month we again have to report shipping delays as consequence of the pandemic!

So we take this opportunity to remind everyone that for all of your overseas suppliers, **please order in advanced** with contingency allowances for vessel cancellation or departure delays

Thank you for reading and for your interest and to those who take time to comment.

We are all learning, so we invite comment on any topic or suggestions for topics. If we don't know, we do know others who do know
